Dear Mr. Hoover,

I want to thank you for the incentive award given to me in connection with the case involving James Earl Ray. It was no little satisfaction to see detailed planning and thought over a period of many months culminate in a final step taken by the Bureau in the safe delivery of the person charged with murder.

Having worked closely with all phases of the investigation, I know the Agents who participated feel a great sense of pride in their accomplishments.

There certainly can be no question about the esprit de corps which your leadership has inspired.

Sincerely,

Al Rosen

INSPECTION - GENERAL INVESTIGATIVE DIVISION

INSPECTOR [REDACTED]

b6

APRIL 3 - 16, 1968

SUMMARY

Officials: Alex Rosen, Assistant Director since 2/13/42; James R. Malley, Number One Man since 4/6/52. Last inspection: May 10 - 24, 1967.

Physical Condition and Maintenance - Excellent (Last Inspection - Excellent). Division occupies space on two floors of Justice Building and one floor Identification Building (Name Check Section). Space efficiently arranged, secure, neatly maintained and adequate for Division's needs. Minor housekeeping delinquencies corrected.

Specific Division Operations - Very Good (Last Inspection - Very Good). Among noteworthy achievements since last inspection were 6 convictions in planned hoodlum bankruptcy schemes including a New York La Cosa Nostra (LCN) member and his associates; additional Federal and local indictments of 18 Klan members growing out of investigation of murder of Vernon A. Dahmer, Negro civil rights worker; 8 convictions in case involving murder of 3 civil rights workers at Philadelphia, Mississippi; convictions of 13 members of hoodlum element in Chicago in group of theft from interstate shipment cases involving losses of some one million dollars; and Marshall Caifano, prominent Chicago LCN member convicted in case involving \$185,000 in counterfeit stocks. Case load 3/31/68 - 42,017 -- up 4.8% since last inspection. Inspector suggested transfer of interstate transportation of gambling devices and interstate transportation of lottery tickets classifications (98 pending cases) to Special Investigative Division since these cases logically relate to field of organized crime -- Assistant Directors Rosen and Gale concurred. Name checks decreased 11%, due primarily to budgetary restrictions among contributing agencies; however, recent trends in contributor referrals and future estimates indicate sustained increase imminent. Name check delinquency substantially reduced. No substantive errors detected. Statistical accomplishments first 9 months of fiscal year (FY) 1968 in classifications supervised by Division up 4.0% in fines, savings and recoveries; up 4.2% in automobiles recovered; and down 1.3% in convictions. Overall Bureau statistical accomplishments up in three categories but down 1% in convictions. Division feels number of subjects pending prosecution (7,392 as of March, 1968, survey) will insure favorable showing by end

Memorandum to Mr. Tolson
Re: Inspection - General Investigative Division

of FY 1968. Division maintaining pressure on field -- necessity for continued maximum effective liaison with Department concerning prosecutions stressed. U. S. Attorneys deferred to local authorities 5,917 subjects first 9 months of FY 1968 from which 3,531 local convictions resulted. Majority (78%) of cases diverted were in interstate transportation of stolen motor vehicle classification -- due primarily to Department's policy on prosecution of persons under 21 years of age. Bank robbery matters increased 27%. Overall solution rate in these violations 67%, slightly above 66% at time of last inspection.

Administrative Operations - Excellent (Last Inspection - Excellent). Supervisory structure, work load distribution, training procedures and allocation of responsibilities geared to provide efficient service to Director and necessary close supervision to the field. Analyses of individual sections and units show close coordination, clear channels of communication and well-qualified, experienced supervisory personnel. Volume of mail up 4.6% from last inspection -- errors scored in outgoing correspondence (5) continued low. Stenographic production well above Seat of Government average -- retypes low. Current programs and surveys justified and Division has acted promptly to discontinue unproductive programs such as White Slave Traffic Act Intensification and Modus Operandi - Personal Appearance File. Inspector suggested streamlining measures involving preparation of justification memoranda in fines, savings and recoveries and division of assignments in Civil Rights Section -- Assistant Director agreed. Form errors low. Odd-hour shifts justified. Suggestions adopted up 21% since last inspection. Contributions to FBI Law Enforcement Bulletin also increased appreciably. Division alert to computer uses and continues to be economy minded with curtailment of unnecessary travel by field and requiring effective utilization of manpower.

Personnel Matters - Very Good (Last Inspection - Very Good). Personnel complement 4/5/68 - 167 (61 Agents, 106 clerks), a decrease of 2 Agents and 5 clerks since last inspection thus showing favorable awareness of need for personnel economies. With determination that 5 of 6 vacancies need not be filled, authorized complement fixed at this lower level of 167 employees as adequate but not excessive -- Assistant Director concurs. Work load on Bank Robbery Desk increased appreciably (27%) since last inspection. Division proposed the assignment of additional clerk to Bank Robbery Unit within framework of authorized complement (filling of 1 vacancy) so as to relieve supervisors of routine administrative and required statistics-keeping functions which appeared fully justified. Training of new employees effective. Voluntary overtime productive and equitably shared. 100% FBIRA membership; substantially increased contributions to "The Investigator" noted. No Agents overweight. One Agent on probation, two Agents on limited duty -- productive, equitably sharing work load; retention justified. Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Division officials and supervisors continuing excellent liaison with productive contacts in Congress, Executive

Re: Inspection - General Investigative Division

Departments and private business. Liaison and higher-level contacts total 141, an increase of 45 since last inspection. Active and productive liaison program exists at all levels. Active speech program before various professional and business groups. Legislative matters being closely followed with emphasis on proposed legislation requiring banks to install protective devices.

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

After reviewing the results of the recent inspection of the General Investigative Division, I have approved the following ratings for the various operations: Physical Condition and Maintenance, Administrative Operations and Contacts - Excellent; Specific Division Operations and Personnel Matters - Very Good.

The space occupied by your Division in the Justice and Identification Buildings was found to be well organized, secure, neatly maintained and adequate for your needs. I was pleased to note that while the Division's overall work load has increased since the last inspection you have been able to keep the regular daily work current with a reduced personnel complement. This shows a favorable awareness of the importance of proper personnel management procedures and administrative streamlining.

Improvement in the field-wide bank robbery solution rate is a pressing need and it is imperative that these important cases receive continued close attention. You should promptly act on your proposal to assign an additional clerical employee to the Bank Robbery Unit which will be within your authorized clerical complement. This action will relieve case supervisors of routine administrative and required statistics-keeping functions brought on by an increased work load.

The noteworthy achievements obtained by your Division since the last inspection involving cases of widespread national interest are certainly gratifying. While your case load has increased substantially during the past year, I was pleased to note that no substantive errors were found during the inspection. I am concerned with your Division's deficit in convictions and while I note you are confident that the number of subjects pending prosecution

will result in a favorable showing by the end of the current fiscal year, I will look to you to provide the personal attention necessary to insure such results.

The Inspector reported that errors scored in outgoing correspondence during the past year have been held to a low level. In view of the increase in volume of mail, remind your employees that there must be no relaxation of accuracy or attention to detail which I expect and shall continue to demand.

Your investigative programs and surveys were found to be justified and productive. I was pleased to note that you have been alert to discontinue unproductive programs. Regular re-evaluation of justification for these programs is a vital responsibility and you must continue to insure that results warrant expenditures of manpower and other resources. The economies which you have achieved through your alert challenges to curtail unnecessary travel and to require effective utilization of manpower are most encouraging.

The Inspector's suggestion concerning transfer of interstate transportation of gambling devices and interstate transportation of lottery tickets classifications to the Special Investigative Division should receive your prompt attention.

The high level of stenographic production and low incidence of re-types are a tribute to the industry of your stenographic pool and are indicative of proper training and efficient use of stenographic personnel. I was pleased to note that errors of form have been held to a low level. Continue to emphasize training and close supervision to insure that these favorable trends are sustained. The excellent participation of your employees in the Bureau's suggestion program is most encouraging.

The increase in the number of contacts developed and being utilized by your Division is noteworthy and I note a favorable awareness of the importance of excellent liaison with Members of Congress, officials of the Executive Branch of the Government and in the private business sector. You have also made excellent progress to date in encouraging legislation requiring banks to install protective devices. I expect continued emphasis on your legislative and liaison programs since the events of this election year and the vital issues which currently face the Bureau and the nation will allow no relaxation of your efforts.

Mr. Alex Rosen

You and your Number One Man should carefully review the inspection findings and within thirty days advise of corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

STANDARD FORM No. 176-T
JANUARY 1968
(For use only until April 14, 1968)
176-101

INSTRUCTIONS TO EMPLOYING AGENCY

1. **Who must file.**—All employees not excluded by law or regulation from insurance coverage, including those who have previously waived coverage, are required to complete and file Standard Form 176-T. Employees who are in the service on February 14, 1968, as well as those who are appointed after that date but before April 14, 1968, must file the form.
2. **Automatic cancellation of previously filed waivers.**—All "Waivers of Life Insurance Coverage" (SF 53) on file are automatically canceled as of the first day of the first pay period beginning on or after February 14, 1968. Payroll offices are to begin regular insurance deductions on the automatic cancellation date for employees who do not file a new waiver, i.e., those who do not check box C of SF 176-T, on or before that date.
3. **Employees failing to file.**—If an employee does not return a completed SF 176-T, contact him and urge him to do so even if he does not want optional insurance (he will, of course, be automatically covered for regular insurance). If he still fails to file SF 176-T by April 14, 1968, or 31 days after appointment, whichever is later, file one for him as of that date; mark box B, and note in the space provided for his signature "employee contacted—failed to elect optional insurance." See note 2 below.
4. **Review of completed forms.**—(a) Review both copies of the SF 176-T for legibility, completeness, and consistency. Reconcile with the employee any obvious major

discrepancy such as a mark in more than one box.
(b) If the employee marked box A or box C, make sure the Statistical Stub is complete. Then detach and mail stubs, in a bundle, weekly to:

Office of Federal Employees' Group Life Insurance
(Statistical Study)
4 East 24th Street
New York, New York 10010

- (c) If the employee marked box B, detach and destroy the stub.
5. **Date of receipt and effective date.**—(a) Stamp date of receipt by employing office in the space provided for this purpose on both the Original and the Duplicate.
(b) The effective date is determined from the table below.
 6. **Disposition of forms.**—(a) File the Original SF 176-T in the official personnel folder in all cases.
(b) Any necessary payroll change, with effective date, may be posted in the space reserved on the Duplicate for employing office.
(c) The Duplicate may be destroyed, if no payroll action is required, or after the requirements of the agency's payroll system have been met.
 7. **Use of SF 176-T.**—SF 176-T "Election, Declination, or Waiver of Life Insurance Coverage" should not be used after the initial filing period (after April 14, 1968). A revised edition will be available for use after that date.

TABLE OF EFFECTIVE DATES

DATE SF 176-T RECEIVED BY EMPLOYING OFFICE	EMPLOYEE'S DECISION	EFFECTIVE DATE (IF NO WAIVER, SF 53, IN EFFECT)	
		OF DECISION	OF DEDUCTIONS
On or before February 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective February 14, 1968.	Deductions begin 1st day of 1st pay period beginning on or after February 14, 1968.
	Declines optional (but not regular) (box B).	Declination effective February 14, 1968.	
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which February 14, 1968 falls.	Deductions stop last day of pay period in which February 14, 1968 falls.
After February 14 but not later than April 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective on date of receipt.	Deductions begin 1st day of 1st pay period beginning on or after date of receipt.
	Declines optional (but not regular) (box B).	Declination effective on date of receipt, but employee loses automatic optional protection on February 14, 1968.	
	Cancels previously elected optional (but not regular) (box B).	Cancellation effective last day of pay period in which received.	Deductions for optional stop last day of pay period in which received.
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which received.	Deductions stop last day of pay period in which received.

- NOTES: 1. Because regular insurance coverage and deductions are automatic unless waived (by checking box C), A and B elections do not affect regular insurance effective dates.
2. An employee for whom the agency files SF 176-T because he failed to file is deemed to have declined optional, but not regular, insurance.
3. An employee with an uncanceled waiver (SF 53) on file cannot be insured any earlier than the first day he is in duty and pay status in a pay period beginning on or after February 14, 1968; filing of an SF 176-T before that date will not cancel an SF-53 any earlier. Deductions begin the day he becomes insured.
4. The effective date of regular (and optional) insurance coverage for an employee who has been on leave without pay for more than 1 year is the first day he is in pay and duty status. Deductions are effective the same day.

There is a peripheral calcification in the left mid lung field and bilateral hilar calcifications. This is consistent with healed granulomatous disease. There is no evidence of active pulmonary disease at this time. When compared to the film of 12 Dec 1966, there is no interval change.

Dear Mr. Hoover,

The luncheon in the Director's honor was truly a tremendous tribute and I could not help but sense the sincerity of the former Agents and their wives who so genuinely joined in expressing their heartfelt admiration for you.

It is an occasion which will remain indelibly impressed upon everyone who was privileged to be in attendance.

Those with whom I spoke were endless in their appreciation for your having taken the time out of a most strenuous day to attend this luncheon.

With every good wish

Sincerely,

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

After reviewing the results of the recent inspection of the General Investigative Division, I have approved the following ratings for the various operations: Physical Condition and Maintenance, Administrative Operations and Contacts - Excellent; Specific Division Operations and Personnel Matters - Very Good.

I was pleased to learn that the space assigned to your Division in the Justice Building and the Identification Division Building is efficiently organized, secure and well maintained. Your emphasis on good housekeeping practices should be continued and minor housekeeping delinquencies brought to your attention should be corrected immediately. The installation of air conditioning in the Name Check Section should enable you to continue to improve efficiency.

The Inspector found your management responsibilities well organized and equitably shared by well-qualified and experienced supervisors.

I was gratified to learn of the noteworthy achievements obtained by your Division since the last inspection involving cases of national prominence. Although your case load has increased substantially during the past year, no substantive errors were found during the inspection. This reflects favorably upon your attention to detail in the supervision of investigative matters. I am very much concerned with the downward trend in convictions in cases supervised by your Division. While restrictive court decisions have placed additional burdens on the Bureau, I want it clearly understood that I expect you to be relentless in your efforts to increase conviction statistics.

Your bank robbery solution rate should be improved. In order to assist you, I have authorized an additional supervisor for this Unit so that

Mr. Alex Rosen

continued emphasis may be maintained on these important cases.

I was pleased to note that even though name checks have increased materially since the last inspection, delinquency in this Unit has decreased considerably, although this was due primarily to an increase in equipment, space and personnel.

The fact that your volume of mail increased during the past year while errors in outgoing correspondence were substantially decreased indicates you are stressing accuracy and appropriate attention to detail. This is indeed favorable and should be continued.

Your programs and surveys were found to be justified and productive; however, you should carefully follow the Inspector's instructions regarding the White Slave Traffic Act progress letters from the field to insure this program is productive. Continuing critical re-evaluation of all programs should be made to insure results obtained are commensurate with the effort expended.

The Inspector's suggestions to eliminate the duplicate Bombing Suspect List maintained at the Seat of Government and the handling of deferred prosecution cases should be immediately implemented.

While stenographic production equaled that of other Divisions, the accuracy of the stenographers was particularly noteworthy as retypes were well below average. A favorable trend exists with regard to typists' production and every effort must be made to continue the efficient use of stenographic personnel.

With the additional Agent whom I authorized for your Bank Robbery Unit, the supervisory and clerical staff appears adequate but not excessive to handle the operations of your Division. You should continually evaluate personnel needs to insure your staff is held to a minimum consistent with the efficient operation of your Division.

I was pleased to note the Inspector found the morale of your Division to be high. The increase in the number of contacts developed by your Division and the special emphasis you have placed on individual participation in this program are commendable. I shall expect you to continue to maintain the excellent liaison you have established.

Mr. Alex Rosen

You and your Number One Man should carefully review the findings in the inspection report and the work papers left with you. Within thirty days from the date of this letter, advise of corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

NOTE: Assistant Director Rosen had a ruptured disk removed from his back by surgery about 1:00 p.m. today. The operation went well and his condition is satisfactory. Apparently a piece had broken off the disk and was floating in the spinal fluid and causing much of Mr. Rosen's difficulty.

Dr. Nealon, Mr. Rosen's personal

physician, called and said Mr. Rosen is out of the operating room and there were no tumors nor difficulties. He had what is called an extruded disk and a piece had broken off from the disk and was floating around in the spinal fluid, which undoubtedly was responsible for much of the trouble.

MR. TOLSON:

RE: ASSISTANT DIRECTOR AL ROSEN
 Physical Condition

Mr. Rosen visited his doctor late on Friday, 1/6/67, at which time the doctor recommended he enter Doctor's Hospital briefly for tests and X-rays relative to his stomach condition. Mr. Rosen's secretary advised this morning that he is still in Doctor's Hospital but will probably receive the results of his X-rays and be released today.

Mr. Rosen is of the opinion that this is strictly a temporary precaution and that there is nothing wrong.

Respectfully,

C. D. DeLoach

Delinquency in name checks high during June, primarily due equipment breakdown. Additional personnel, equipment and space (previously approved) should correct. No substantive errors detected. Statistical accomplishments for fiscal year 1966 in classifications supervised by the Division up in fines, savings and recoveries (9.8%); fugitives (4.6%); and autos recovered (3.5%), but down in convictions (approximately 1%). PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

After reviewing the results of the recent inspection of the General Investigative Division, I have approved the following ratings for the various operations: Administrative Operations - Excellent; Physical Condition and Maintenance, Specific Division Operations, Personnel Matters and Contacts - Very Good.

Your space was found to be secure, well arranged and generally well maintained. Good housekeeping practices should continue to be emphasized to all employees. When the additional space allocated to the Name Check Section is available, your space should be adequate for the operations of your Division. The additional window air-conditioning units being installed in the Name Check Section should make working conditions more agreeable in that Section. You should insure that the installation of the power line needed to operate these units is completed as quickly as possible and that the additional space is fully utilized as soon as it is available.

I was pleased that the classifications supervised by your Division showed increases in three statistical accomplishment categories for fiscal year 1966. However, it was disappointing that your conviction statistics declined slightly. Your over-all rating in this area would have been excellent if not for this deficiency. The problems experienced in the conviction category during this year highlight the need for redoubled emphasis. You must insist that all field offices afford the statistic-producing classifications the necessary attention to obtain a desirable record.

The increased bank robbery solution rate reported by the Inspector was most gratifying. Close attention must be afforded these important cases in order that this favorable trend may continue.

DUPLICATE YELLOW

See Note Last Page.

Mr. Alex Rosen

The over-all field delinquency in your classifications increased slightly since the last inspection. The field must be followed closely to reduce undue delinquency in any classification.

I am concerned regarding the high delinquency experienced in handling name checks during June, 1966, even though this situation was primarily due to equipment failure. The additional equipment and personnel to be provided the Name Check Section should enable you to drastically reduce this delinquency and substantial improvement must be shown.

The Inspector reported noteworthy achievements in a number of areas, including the indictments of major hoodlums, the prevention of the fraudulent election of an Alabama sheriff, convictions in connection with civil rights matters, the solution of a major extortion case and the breaking up of a ring engaged in thievery from interstate shipments. These and other accomplishments reported indicate effective supervision and leadership by you and your supervisory staff.

The inspection indicated that your Division's supervisory responsibilities are equitably shared and well organized. Reductions in form errors and correspondence errors, coupled with an increased volume of mail being handled by individual supervisors, indicate a desirable attention to detail which should be continued in an effort to completely eliminate such errors.

Your programs and surveys were found to be productive and justified. Continuing critical examinations of their results should be made to assure that they remain so.

You should continue to be alert to the use of roving Inspectors in problem cases of major proportions. You should also consider their use if a particular classification of major importance appears to be presenting problems in an office which might be resolved by detailed on-the-spot analysis and examination.

The production of your stenographic pool was above and the percentage of retyped pages below the averages for these items at the Seat of Government. The change in mail delivery procedure from the stenographic pool to the Criminal Section recommended by the Inspector will expedite the delivery of typed material to supervisors in that Section.

In view of the increased work load reported by the Inspector, I am authorizing your Division to continue to operate on a temporary basis

Mr. Alex Rosen

with sixty-three Special Agents. By November 1, 1966, you should reduce your supervisory staff to the previously established complement of sixty-two. If circumstances beyond your control make it necessary to retain the additional supervisor after that date, you should submit full justification for doing so.

The morale of your personnel appeared high. You should continue to see that all voluntary overtime is necessary, productive and equitably shared.

You should continue the reduction of delinquencies in firearms training effected since the previous inspection. The two work-related accidents reported represent a decrease since the prior inspection period. Constant attention to maximum safety is imperative. You must insist that any employee involved in an accident submit the necessary form promptly.

You should insure the field is promptly advised concerning all new laws within FBI jurisdiction even if complete instructions must be held in abeyance pending Departmental interpretations.

The continued active participation of your Division in the contact and speech programs was noted by the Inspector and he also reported that necessary liaison is receiving active attention.

The inspection report and copies of the work papers left with you should be reviewed carefully by you and your Number One Man. The inspection findings and this letter should be brought to the attention of your supervisory staff. Advise the Inspection Division as promptly as possible concerning the action taken to comply with the instructions contained herein and those issued during the inspection.

Sincerely yours,

John Edgar Hoover
Director

Dear Mr. Rosen:

It is a pleasure to commend you for the outstanding attitude you exhibited in reporting for duty today despite extremely hazardous travel conditions.

You demonstrated a sincere devotion to duty in considering your services so essential that in spite of an announcement that all Federal Government agencies would be closed you reported for duty. I do not want the opportunity to pass without advising you of my appreciation and that I have instructed that a copy of this letter be placed in your personnel file.

Sincerely yours,

Dear Al:

It is with great pleasure that I commend you for your superb over-all direction and guidance of the investigation and trial of Eugene Thomas and two other subjects of a Civil Rights case.

The success achieved in the conviction of the subjects can be attributed directly to your skill and determination in affording this very complicated and delicate major case your close, personal attention and to your adroitness in overcoming the problems and difficulties encountered. You again have displayed your ability to handle such important matters and certainly merit this expression of my appreciation.

Sincerely REC-144

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

I have reviewed the results of the recent inspection of the General Investigative Division and have approved the following ratings for your operations: Physical Condition and Maintenance, Specific Division Operations, Administrative Operations, Personnel Matters and Contacts - Very Good.

Your space was found to be secure and generally well maintained except for the minor delinquencies which were either corrected on the spot or ordered corrected. You should see to it that each employee assumes his share of the essential function of housekeeping. The Inspector reported that there is a temporarily crowded condition in a portion of the Criminal Section due to space requirements of another Division necessitated by a special investigative situation. In connection with this, at the most propitious time, you should rearrange that Section in accordance with the Inspector's suggestion. The Inspector determined that six Agent supervisors should obtain new credentials because the photographs on their current ones are not good likenesses. Please handle this matter promptly.

I am pleased with the substantial contributions your Division has made in the vital area of statistical accomplishments. I noted that these accomplishments were up in all categories for fiscal year 1965. Of concern to me, however, is the fact that the margin of increase in the very important category of convictions is extremely narrow. I expect you to take firm and aggressive measures to insure that the favorable over-all record is continued. You must make certain that we obtain maximum results from the investigative efforts expended throughout the field. I have observed with interest the results of the additional emphasis placed on bank robbery matters and that convictions, and fines, savings and recoveries in these matters have shown marked increases. Very pleasing to me is the fact that the rate of solutions in bank robbery matters has increased more than twelve percent. You must give this area of your responsibilities the

Mr. Alex Rosen

necessary emphasis to maintain this desirable trend because I expect continued improvement. The Inspector's suggestion, which you have already implemented, that certain miscellaneous classifications be transferred from the Bank Robbery Unit to the General Crimes Unit should assist in the intensified handling of bank robbery matters.

The Inspector highlighted noteworthy accomplishments in a number of major investigations, including convictions of James R. Hoffa and certain of his associates as well as a return of indictments based on our investigations in cases of nationwide interest such as the murders of civil rights workers in Mississippi and the identification and arrest of [redacted] who killed three bank employees and seriously wounded another during a recent Nebraska bank robbery. These and other accomplishments reflect most favorably on the Bureau and are indicative of effective leadership and teamwork. You must continue to review and analyze the various surveys and intensification programs initiated by you to make certain that they are productive and insure that manpower and the efforts being expended are fully justified in relationship to the results obtained. Particular attention is directed to the "Modus Operandi - Personal Appearance" Program in bank robbery matters. In accordance with the Inspector's recommendation this program should be carefully re-evaluated in six months to make certain the results obtained are commensurate with the cost of operation. b6

The increase in pending matters exceeding six percent since the last inspection highlights the need for attention to the most effective utilization of manpower and implementation of all possible streamlining measures, including application of automatic data processing techniques. It is most gratifying that you have been able to absorb this increase in work with two less Agent supervisors than at the time of the last inspection. I was also encouraged by your agreement with the Inspector to handle the midnight supervisory shift on a rotating basis for a trial period rather than request a replacement for the midnight supervisor who was recently transferred. You should give this matter your continuing personal attention, bearing in mind my strong desire to maintain the Seat of Government supervisory staff at an absolute minimum consistent with discharging our responsibilities so that maximum investigative manpower can be made available to the field where urgently required.

Aggressive efforts should be continued to have a standardized name check form adopted for uniform use by agencies in requesting name checks. This most desirable objective, along with your efforts to explore the possible use of a machine for automatically handling "no record" name checks, should be followed closely since substantial economies should be realized.

Mr. Alex Rosen

Although production of the stenographic pool has improved since the last inspection and is above the current Seat of Government average, there is need for improvement in the percentage of retyped pages. Since the majority of the retypes were due to Agent error, supervisors should more carefully prepare for dictation. At the end of the peak work load of the summer season, anticipated in civil rights matters, your stenographic complement should be analyzed to determine whether any personnel may be released at that time.

It was noted that firearms training delinquencies are excessive. I am well aware of the problems involved; however, I want you to personally insure that such delinquencies are maintained at an absolute minimum.

It was good to learn that the conferences and In-Service lectures monitored were informative and well directed and that your Division effectively participates in the contact and speech programs.

You and the Number One Man should carefully review the findings in the inspection report and work papers left with you. Make certain these matters, as well as this letter, are thoroughly reviewed by your supervisory staff. Advise the Inspection Division as soon as possible of all action taken to comply with the instructions contained herein and with those of the Inspector.

Sincerely yours,

John Edgar Hoover
Director

INSPECTION - GENERAL INVESTIGATIVE DIVISION

JUNE 2 - 23, 1965

SUMMARY

Officials: Alex Rosen, Assistant Director, Investigative Division since 2/13/42, and General Investigative Division since its creation 2/10/61. Inspector James R. Malley, Number One Man since 2/10/61. Last Inspection: 3/12-4/3/64.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division occupies space Identification Building (Name Check Section) and on 2 floors Justice Building; some crowding Criminal Section due to temporary loan of one room to Domestic Intelligence Division; however, no additional space warranted at present. Suggested rearrangement of Criminal Section to provide contiguous space for General Crimes Unit. Minor housekeeping delinquencies corrected on spot or ordered corrected. Personal property checked - no delinquencies. New credentials ordered for 6 supervisors due to outdated photographs.

Specific Division Operations - Very Good (Last Inspection - Very Good). Substantial accomplishments since last inspection including indictments against New York La Cosa Nostra hoodlum, murderers of 3 civil rights workers in Mississippi; murderers of Viola Liuzzo in Alabama; conviction of Hoffa; solution of Penn case; and Nebraska bank robbery in which 3 victims murdered. No substantive errors detected. Work load continues heavy, total pending matters up 6.5% since last inspection. Statistical accomplishments fiscal 1965 up in all categories. Additional emphasis placed on convictions since margin over last year less than 1%. Division cases are primary source of convictions, fines, savings and recoveries and automobiles recovered and a substantial source of fugitives apprehended. Separate unit formed for bank robbery matters last inspection for more emphasis; in past 12 months nearly 30% increase in convictions and over 26% increase in fines, savings and recoveries noted in bank robbery cases. Solution rate in bank robbery matters first 11 months 1965 fiscal year 65.9% (substantial increase over fiscal 1964). Surveys and intensification programs to implement coverage and improve investigative results in certain categories indicate currently justified; Division must continue to give close periodic evaluation to insure results commensurate with costs and manpower requirements; Modus Operandi - Personal Appearance program relatively new in bank robbery field. Inspector ordered re-evaluation in 6 months to determine if accomplishments commensurate with costs. Emphasis placed on continuing efforts to have standardized name check form adopted for agency use and to explore possibility obtaining automatic counting and stamping machine for handling "no record" forms; would achieve noteworthy savings if feasible for such high-volume work.

Memorandum to Mr. Tolson
Re: Inspection - General Investigative Division

Administrative Operations - Very Good (Last Inspection - Very Good). Divisional supervisory responsibilities equitably shared and well organized in all sections. Mail flow and processing satisfactory. 3 classifications transferred to General Crimes Unit from Bank Robbery Unit to permit full attention bank robbery matters. Division agreed with Inspector's suggestion to revise statistical classification form to effect time savings by supervisors in compiling data for issuing periodic analyses to field. Stenographic pool production above Seat of Government average - improvement over last inspection; retypes decreased, but still too high. Corrective action ordered. Form errors low, reduction since last inspection. Odd-hour shifts justified; Division agreed with Inspector's recommendation midnight supervisory shift be rotated among Agent personnel on trial basis rather than use of full-time supervisor. Alertness to use of automatic data processing equipment stressed. Registers, time and attendance and leave records satisfactory. Correspondence errors decreased since last inspection. Outstanding human interest items submissions, very good contributions to Law Enforcement Bulletin.

Personnel Matters - Very Good (Last Inspection - Very Good). Total personnel as of 6/3/65, 161 (64 Agents, 97 clerical), decrease of 2 Agent supervisors since last inspection. Midnight supervisor under transfer. After Inspector's analysis, Division agreed to withdraw request for replacement and rotate assignment on trial basis among existing personnel; therefore, 63 Agent supervisors and officials currently adequate, but not excessive. Instructed to thoroughly analyze stenographic pool at end of peak work load of summer season and submit recommendations as to possible reduction in staff. Constant alertness to streamlining possibilities and necessity for maximum use of personnel stressed. Instructed to reduce firearms training delinquencies. Substantial assistance given to specialized In-Service schools. No Agents on probation or overweight. 1 Agent on limited duty - justified. Voluntary overtime necessary and productive. Conferences and lectures monitored - satisfactory. Morale appears high.

Contacts - Very Good (Last Inspection - Very Good). Division personnel continue to effectively participate in contact and speech programs. Contacts decreased by 1 since last inspection. Increased participation by all Agents urged. Liaison effective and legislative matters properly handled.

**ALEX ROSEN
ASSISTANT DIRECTOR
GENERAL INVESTIGATIVE DIVISION**

Mr. Rosen is the Assistant Director in charge of the General Investigative Division and is responsible for the coordination and supervision of FBI investigative matters of a general, criminal, and civil nature, as well as the processing of name checks for other Government agencies and the preparation of special memoranda in response to inquiries from the Director, the White House, the Attorney General, and other highly placed Government officials. For the period April 1, 1964, to March 31, 1965, his over-all performance has been so exceptional that it merits the rating of Outstanding.

He presents a substantial, mature appearance and has a pleasing, yet forceful, personality which makes him most effective in his contacts. His boundless enthusiasm, unusual drive and determination, and vast knowledge of all the operations of the FBI have contributed greatly to his superior accomplishments.

During the past year due to the acute civil rights unrest throughout the country, the Bureau's role in this vital area of our jurisdiction has been exploited to the fullest; nevertheless, Mr. Rosen necessarily and willingly assumed a large share of this increased volume of work. He meticulously and judiciously carried out his duties, giving inspirational leadership and astute guidance to his subordinates. He consistently demonstrated his complete capability to direct the activities of his division, which has an important bearing on the notable success of our undertakings. He has displayed remarkable judgment and has been ever alert to protect the Bureau's best interest.

The dedicated efforts of Mr. Rosen have been reflected in his many achievements under difficult conditions and circumstances during the year and clearly justify this Outstanding rating.

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

The General Investigative Division Inspection, concluded April 3, 1964, resulted in the following ratings: Physical Condition and Maintenance, Specific Division Operations, Administrative Operations, Personnel Matters and Contacts - Very Good.

Space occupied by your Division was adequately arranged. Housekeeping was orderly with only minor delinquencies which you should promptly correct. Continue to emphasize to all employees their responsibility for sharing constant alertness to proper housekeeping. The office space occupied by the Section Chief, Civil Rights Section (Room 2714) adjacent to space occupied by the Department of Justice, is susceptible to transmission of voices between the separating wall with resultant loss of security. Although funds are not available for additional soundproofing at this time, all personnel using this room should modulate their voices to lessen this potential, and you should follow the future availability of funds to further soundproof the room as recommended by the Inspector. The crowded condition of the Division stenographic pool should be closely followed with the Administrative Division for additional space, when available.

I am pleased with the substantial contributions your Division has made to the increased statistical accomplishments in all categories for fiscal year 1963 and for the first eight months of the current fiscal year. The inspection also highlighted a number of noteworthy accomplishments in major investigations, including the convictions of Hoffa and the Sinatra kidnapers, as well as arrests in the Florida railway and residence bombings. Cognizance has also been taken of the heavy responsibilities handled in the Assassination "special," the Jack L. Ruby case, and the Robert G. Eaker matter.

(See NOTE last page)

Mr. Alex Rosen

These and other Division accomplishments redound most favorably to the Bureau's credit and bespeak effective leadership and teamwork. Yet, we must not overlook other essential matters where greater effort is urgently required. These include the need for intensification in such areas as racial bombings, White Slave Traffic and Bank Robbery cases, as well as increasingly effective coverage of United Klans of America, Incorporated, and like groups.

In Bank Robbery matters you must see that greater stress is placed on substantially increasing the percentage of successful solutions, especially creditable to the Bureau's efforts as distinguished from local authorities. This is all the more important because of the rapid increase in the number of such cases plus the recently changed policy which prohibits closing unsolved Bank Robbery cases. Also, in order to meet and solve the problems created by the continuing heavy work load, as evidenced by an increase in pending matters exceeding nineteen percent since the last inspection, you must constantly impress personnel with the need for maximum attention to planning and most effective utilization of manpower.

The slight increase in field delinquencies should be closely followed and emphasis placed upon reducing these delinquencies to a minimum. The existing surveys and intensification programs supervised by your Division are currently justified; however, you must continually evaluate their worth in the light of new conditions and other priorities to make certain the results justify the costs, especially insuring that the manpower being expended by the field is fully justified.

The Inspector recommended that the Name Check Section reopen and renew efforts to have a standardized name check form adopted for uniform use by agencies in requesting name checks. This is a most desirable objective which will achieve substantial economies. Accordingly, you should follow the matter closely and not permit efforts to lag or cease until either a successful conclusion is reached or all avenues of approach have been exhausted.

The Inspector's reorganization of the General Crimes Unit, Criminal Section, to establish Bank Robbery matters as a separate unit must be given your wholehearted support during the six-month trial period. The growing burden of increasing violations in the Bank Robbery classification clearly illustrates the necessity for emphasizing and highlighting supervision

Mr. Alex Rosen

of this very important investigative matter. The reorganization of the Unit is intended to accomplish this function and you should closely follow the results achieved and make appropriate recommendations concerning its continuance at the expiration of the trial period.

The administrative organization for coordinating the Assassination "special" and handling liaison with the Presidential Commission appears satisfactory and all personnel sharing responsibility fully appreciate the top priority of these matters. However, as soon as this "special" tapers off sufficiently, you should endeavor to release one clerk from the Division and possibly one Special Agent Supervisor who has been on loan from the Interstate Crimes Unit which has to date absorbed his work.

The production of your stenographic pool continues to be slightly below current Bureau average and the percentage of retypes has increased over the last inspection. Despite the fact that some employees in the pool are inexperienced, you should make certain all possible steps are being taken by the pool supervisor and the personnel involved to bring about a substantial improvement.

The interest of your Division in submitting an increasing number of suggestions and the large number of Human Interest Items submitted since the last inspection are indicative of high-caliber leadership and excellent morale. Continue to encourage your employees in this regard and be especially insistent that all Sections equitably share responsibility for contributing to the Suggestion Program. I am also advised that the conferences and In-Service lectures monitored were informative, constructive and well directed.

I was encouraged by the Inspector's report on manpower savings effected by some Sections of the General Investigative Division. The Accounting and Fraud Section is to be congratulated on reducing by two Agent Supervisors as recommended at the time of the last inspection, for agreeing to absorb the work of an additional Agent who was transferred from the Division shortly prior to the current inspection, and for agreeing to the Inspector's suggested realignment of functions to permit absorbing the work of another Agent who retired during the inspection. The Special Memoranda Unit of the Name Check Section has also cooperated by agreeing with the Inspector's conclusion that enough time has elapsed since the transfer out of a Special Agent Supervisor on February 25, 1964, to determine that his work can be absorbed. Additional manpower reductions are likely on termination of the Assassination "special" as previously mentioned. All of these items

Alex Rosen

indicate you are mindful of my strong desire to strip the Seat of Government of all Agents who are not absolutely essential so that maximum investigative manpower can be made available in the field where urgently required. This must be a continuing objective.

The Inspector reported the morale of your Division appears high. All Agents were found available during the inspection and the Promotional Availability List is currently being maintained in a satisfactory manner. I have been advised your Division effectively participates in contact and speech programs.

You should carefully study the inspection findings which were brought to your attention during the inspection and review them thoroughly with your supervisory staff. Please see that the numerous suggestions made by the Inspector are promptly implemented. The Inspection Division should be advised as soon as possible of all action taken to comply with the instructions contained herein and with those of the Inspector.

Sincerely yours,

John Edgar Hoover
Director

GENERAL INVESTIGATIVE DIVISION INSPECTION
INSPECTOR H. L. EDWARDS
MARCH 12 - APRIL 3, 1964

SYNOPSIS

Officials: Alex Rosen, Assistant Director, Investigative Division, since 2/13/42, and General Investigative Division since its creation 2/10/61. Inspector James R. Malley, No. 1 Man of General Investigative Division since its creation 2/10/61. Last inspection (recheck) 10/25 - 11/8/62.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division occupies space in Ident Building and on 2 floors of Justice Building, but individual sections have contiguous space. Division instructed to keep alert for space to relieve overcrowded steno pool. Potential security hazard noted in Civil Rights Section caused by inadequate soundproofing in one room adjoining Department space - Division instructed to modulate voices until funds available for better soundproofing. Housekeeping orderly with only minor delinquencies needing correction.

Specific Division Operations - Very Good (Last Inspection - Very Good). Since last recheck Division credited with noteworthy accomplishments including conviction of Hoffa; convictions in Sinatra kidnapping, and arrests in Florida railway and residence bombings. Division has carried heavy load handling many aspects of Assassination "special," also the Jack L. Ruby and "Bobby" Baker cases. Statistical accomplishments fiscal year 1963 ahead in all categories over fiscal year 1962, also up in all categories first 8 months of fiscal year 1964. Record especially significant since cases supervised in this Division are primary source of all convictions; fines, savings and recoveries; and automobiles recovered besides contributing to fugitives apprehended. Work load continues heavy with total pending matters up 19.5% since last recheck inspection. Current surveys and intensification programs justified but Division must continue periodic re-evaluation and make certain field is getting adequate return for manpower expended. Intensification needed in such areas as racial bombings, coverage of Klans, White Slave Traffic and Bank Robbery matters. Division has instructed field that no unsolved Bank Robbery cases can be closed on SAC authority; Greater attention needed to increase Bureau solutions in Bank Robbery matters. Inspector recommended Name Check Section reopen and renew efforts to have a standardized name check form adopted for agency use which would achieve noteworthy savings in this high-volume work.

Administrative Operations - Very Good (Last Inspection - Very Good). Division agreed to Inspector's reorganization of General Crimes Unit of Criminal Section on 6-month

Re: General Investigative Division Inspection

trial which establishes separate unit for Bank Robbery matters (no increase in manpower) designed to more definitely fix coordinating responsibility and insure sharper focus on planning and securing better results since case load is greatly increasing. Administrative organization for coordinating Assassination investigation and handling liaison with Presidential Commission appears satisfactory and all personnel sharing responsibility fully appreciate top priority of these matters. Division supervision, flow and processing of mail adequate. Combined stenographic and typist production slightly below last recheck inspection and current Seat of Government average; percentage of retypes above last recheck, attributed to inexperienced employees; Inspector ordered corrective action. Suggestions submitted and adopted increased for fiscal 1963. Human interest items submitted outstanding. Contributions to FBI Law Enforcement Bulletin very good. Correspondence errors decreased during comparable periods, 1962-63, 1963-64.

Personnel Matters - Very Good (Last Inspection - Very Good). Accounting and Fraud Section reduced by 2 Agent Supervisors since last recheck based on Inspector's recommendations. Division agreed to absorb work of additional Agent transferred shortly before current inspection, and to absorb another Agent who retired during inspection by realignment of Section work as Inspector recommended. On completion of assassination "special" Inspector feels one clerk can be released from Division and possibly one Agent on loan from Interstate Crimes Unit which has to date absorbed his work. Special Memoranda Unit of Name Check Section lost 1 Agent by transfer 2/25/64 and although Section requested 60 days to see if duties could be absorbed, Inspector determined replacement not warranted and Division agreed. Name Check Unit had previously reduced by 1 Reviewer Analyst (GS-8) and 1 clerk and Inspector feels remaining personnel justified, subject to close re-evaluation on any significant drop in work load or future personnel losses. Division impressed with necessity for constant streamlining and maximum use of personnel. Morale high.

Contacts - Very Good (Last Inspection - Very Good). Division personnel continue to effectively participate in contact and speech programs. Contacts increased by 12 since last inspection. Liaison effective and legislative matters properly handled.

RECOMMENDATIONS:

1. Assistant Director Rosen, GS-18 @ \$20,000, nonveteran, not on probation, in charge of Investigative Division since 2/13/42 and General Investigative Division since its creation 2/10/61. Makes excellent appearance, is dedicated, has wealth of experience in criminal and applicant matters and exhibits cautious judgment in delicate policy issues. He maintains close grasp of operations and imposes tight administration, commanding respect and confidence of personnel. He was rated "Outstanding" on his last annual performance rating (4/1/63). Recommend attached letter be sent to Mr. Rosen summarizing results of inspection.

Memo for Mr. Tolson
Re: General Investigative Division Inspection

2. Inspector James R. Malley, Number One Man, Investigative Division since 1/27/57, and General Investigative Division since its creation 2/10/61, GS-17 @ \$19,500, nonveteran, not on probation. Mr. Malley makes an excellent appearance, is thoroughly dedicated and loyal, well liked by personnel, and functions as an outstanding teamworker. He acts capably in the absence of Mr. Rosen, and has been effective in his liaison capacity with the Presidential Commission investigating President Kennedy's assassination. He was rated "Outstanding" on his last annual performance rating (4/1/63). Attached letter to Assistant Director Rosen will serve to inform Mr. Malley of inspection findings.

3. Recommendations regarding other personnel being handled separately.

Memo for Mr. Tolson
Re: General Investigative Division Inspection

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Division occupies space in Identification Building and on two floors of Justice Building but space contiguous within sections. Criminal Section space is crowded in some areas and there is little room for expansion; however, no additional space warranted at present. Inspector recommended consideration be given additional soundproofing of one room in Civil Rights Section adjacent to space occupied by Justice Department personnel to eliminate potential of transmission of voices through separating wall. Division instructed to modulate voices until funds available for better soundproofing. Housekeeping orderly with only minor delinquencies needing correction. Instructed to closely follow until all requests for equipment, cleaning and repairs resolved. Individual sections are conveniently arranged for operational requirements, and generally present a pleasant, businesslike appearance. Division Steno Pool has "doubled up" in two rooms resulting in a crowded condition that is undesirable but workable. Instructed to follow this matter with Administrative Division for additional available space. Personal property satisfactory.

SPECIFIC DIVISION OPERATIONS VERY GOOD

Ten most important cases plus representative number of other cases reviewed. Noteworthy accomplishments have been achieved in cases supervised since last recheck inspection including the conviction of James Riddle Hoffa; convictions of three subjects in the Frank Sinatra, Jr., kidnapping case; and arrests in the Florida Railway and residence bombings. Division has carried heavy load handling many aspects of Assassination "special," also the Jack L. Ruby and "Bobby" Baker cases. Statistical accomplishments for Bureau fiscal year 1963 exceeded fiscal year 1962 in all categories as follows: Convictions 0.7%; fines 0.7%; savings and recoveries 6.5%; fugitives 6.5%; autos recovered 1.4%; and are up in all categories first 8 months of fiscal year 1964 (convictions 0.7%; fines 35.4%; savings and recoveries 10.9%; fugitives 6.6%; and autos recovered 4.0%). Record especially significant as General Investigative Division is primarily responsible for supervision of all these categories except fugitives; however, Division makes substantial contributions in latter category.

Work load continues heavy with total pending matters up 19.5% since last recheck inspection (30,241 pending matters 10/31/62 compared to 36,127, 229/64). Review of surveys and intensification programs initiated by Division indicates they are currently justified. Division to continue to evaluate the need for these and others initiated in the future to make certain field is getting adequate return for manpower expended. Intensification needed in such areas as racial bombings, coverage of Klans, White Slave Traffic and Bank Robbery matters. Division has instructed field that no

Memo for Mr. Tolson
Re: General Investigative Division Inspection

unsolved Bank Robbery cases can be closed on SAC authority, and emphasized need to follow existing instructions in closing unsolved cases; (11) Greater attention needed to increase Bureau solutions in Bank Robbery matters.

Field delinquencies in cases supervised by Division increased slightly from 7.1% (last recheck inspection) to 7.6% (2/29/64). Instructed to follow closely. Two form errors detected in 40 files reviewed (5.0%), slightly under 5.06% detected at time of last recheck inspection.

Inspector recommended Name Check Section reopen and renew efforts to have a standardized name check form adopted for agency use which would achieve noteworthy savings in this high-volume work.

ADMINISTRATIVE OPERATIONS VERY GOOD

Inspector recommended reorganization of General Crimes Unit, Criminal Section, establishing a separate unit of 4 supervisors (no increase in personnel) to handle all Bank Robbery matters to more definitely fix coordinating responsibility and insure sharper focus on planning and securing better results since case load is greatly increasing. Division agreed to reorganization on 6-month trial. Administrative organization for coordinating Assassination investigation and handling liaison with the Presidential Commission appears satisfactory and all personnel sharing responsibility fully appreciate top priority of these matters. Special indices and ticklers have been set up to properly follow and supervise the investigative activities.

Division Front Office consists of Assistant Director Rosen and Inspector Malley, and Division comprises 4 Sections: Criminal, Civil Rights, Accounting and Fraud, and Name Check. Each Section is supervised by a Section Chief and Number One Man. Supervision, flow and processing of mail in the Division were found to be adequate.

Combined stenographic and typist production 2.67 pages per hour is slightly below last recheck inspection of 2.7. Current Seat of Government average 2.88. Combined retypes percentage of 6% is increase over last recheck inspection of 4.2%. 50% of retypes attributable to steno and typist errors. Less production and more retypes due to inexperience of employees; all but one steno and one typist with less than 6 months' experience. Inspector ordered corrective action.

Except for one minor form error noted, which did not affect fringe benefits, spot check of registers, time and attendance and leave records satisfactory. Completeness and accuracy of records stressed. Forms and spot check of inventory satisfactory. Odd-hour shifts justified. Ticklers being maintained in accordance with Bureau instructions.

Memo for Mr. Tolson
Re: General Investigative Division Inspection

59 suggestions submitted and 21 adopted since last recheck inspection. During fiscal year 1962, 19 suggestions submitted and 9 adopted compared to 40 submitted (110% increase) and 12 adopted (33% increase) during fiscal year 1963. 138 Human Interest Items submitted in 1963 and 25 submitted in 1964 considered outstanding. 3 voluntary suggestions and background information submitted for 2 other articles during 1963 for the FBI Law Enforcement Bulletin considered very good. Correspondence errors decreased from 56 during six-month period, 1962-63 to 39 during comparable period 1963-64.

PERSONNEL MATTERS VERY GOOD

Accounting and Fraud Section reduced supervisory staff by 2 Agent supervisors since last recheck based on Inspector's recommendations. Division agreed to absorb work of additional Agent transferred shortly before current inspection, and to absorb another Agent who retired during inspection (effective 4/24/64) by realignment of Section work as recommended by the Inspector. On completion of Assassination "special" Inspector feels one clerk can be released from Division and possibly one Agent on loan from Interstate Crimes Unit which has to date absorbed his work. Special Memoranda Unit of Name Check Section lost one Agent by transfer 2/25/64 and although Section requested 60 days to see if duties could be absorbed, Inspector determined replacement not warranted and Division agreed. Name Check Unit had previously reduced personnel by one Reviewer Analyst (GS-8) and one clerk and Inspector feels remaining personnel justified, subject to close re-evaluation upon any significant drop in work load or future personnel losses. Division impressed with necessity for constant streamlining and maximum use of personnel.

Conferences and In-Service lectures monitored were constructive and informative. Unannounced availability checks revealed all Agents available. Promotional Availability List satisfactory. Morale high.

CONTACTS VERY GOOD

Division personnel continue to effectively participate in contact and speech programs. 84 contacts listed last recheck inspection, 96 current inspection, for increase of 12. Since last recheck inspection 7 speeches given by personnel in addition to two Bank Robbery conferences and lectures before specialized schools, New Agents and In-Service Classes. Liaison with other Government agencies and the Department effectively maintained. Legislative matters properly handled and coordinated with other Divisions.

Information furnished by Mr. Belmont indicates that the success achieved in this case to date in the arrest of the subject and the very fine publicity which the Bureau has received is attributed to the direction and attention afforded the matter by Assistant Directors Rosen and DeLoach. Noted that both of these men were on duty over the past weekend from 8:00 a.m. Saturday until approximately 2:00 a.m. Sunday in directing all facets of the matter and handling liaison with the Department as well as news media. Based on the outstanding performances of these men it is recommended that they each be granted a \$300 incentive award. Dear Mr. Rosen:

I am taking this opportunity to commend, through you, the agents in the General Investigative Division who contributed in such a fine fashion to the recently completed Specialized In-Service Training on Bank Robberies.

These men were very effective in handling their numerous responsibilities in this important training program, not only in making necessary plans, but also in the instruction. They were responsible in great part for the success of the school and I want you to convey my appreciation for their valuable contributions.

Sincerely yours,

J. Edgar Hoover

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

In continuing my employment in the Federal Bureau of Investigation, United States Department of Justice, I hereby agree that I will be governed by the following provisions.

1. That the strictly confidential character of any and all information secured by me or coming to my attention in connection, directly or indirectly, with my work as an employee of this Bureau, or the work of other employees of which I may become cognizant, is fully understood by me; and that neither during my tenure of service with the Federal Bureau of Investigation, nor at any time, will I violate this confidence nor will I divulge any information of any kind or character whatsoever that may become known to me to persons not officially entitled thereto, recognizing applicability to me of penalty provisions in case of any violation by me.
2. That information referred to in Item 1 above includes but is by no means limited to information in the interests of the defense of the United States marked "Top Secret," "Secret," or "Confidential," and that Department of Justice regulations provide specifically for penalty applicable to me for any violation of Executive Order 10501, the basic authority for safeguarding such information, as follows: "Any officer or employee who violates any provision of Executive Order No. 10501, as amended, or of these regulations shall be subject to appropriate disciplinary action. Prompt and stringent administrative action shall be taken against any officer or employee determined to have been knowingly responsible for any release or disclosure of classified defense information or material except in the manner authorized by these regulations. Whenever a violation of criminal statutes may be involved in a deliberate unauthorized release or disclosure of classified defense information, criminal prosecution, in an appropriate case, shall also be instituted."

I further certify that the conditions specified herein are agreeable to me, and that I continue as an employee of the Federal Bureau of Investigation with a full knowledge of the conditions above set forth.

Very truly yours,

PURPOSE: To keep you informed of additional information concerning Mr. Rosen's health. You were informed 12-6-62 that Mr. Rosen had his annual physical examination 11-13-62 at the U. S. Naval Hospital, Bethesda, when he was found to have elevated blood pressure. The medical examiner then reviewed subsequent blood pressure readings which were taken twice daily for four days by our Health Service. When the medical examiner reviewed these readings he ordered a series of special tests and arranged for a cardiology consultation scheduled 1-3-63. Between 11-13-62 and 1-3-63 blood pressure ranged from a low of 138/90 to a high of 180/108. On the latter occasion, after 30 minutes' bed rest his blood pressure dropped to 150/90. Results of these special tests, including the medical report dated 11-13-62 and cardiology consultation report dated 1-3-63 have now been received.

The medical examiner has certified Mr. Rosen as fit for full duty. Captain W. B. Ingram, Chief of Cardiology, U. S. Naval Hospital, noted findings are compatible with the diagnosis of hypertensive vascular disease, benign, mild, and labile (unstable). He noted that Mr. Rosen has had a left axis heart deviation since 1948 and said it does not appear that this is a particularly abnormal finding or as a result of hypertensive vascular disease. Captain Ingram noted current findings do not indicate that Mr. Rosen's physical activity requires any restriction, compatible for his age, or that he needs medication for his blood pressure. He noted a further report of daily blood pressure readings at work would be helpful in determining whether his blood pressure remains at a sufficiently sustained level to warrant treatment and if so, he offered to further evaluate and treat Mr. Rosen.

Mr. Rosen has been apprised of these findings and copies of the tests and reports were made available to him. He will furnish these to his personal physician and abide by the latter's advice. Inasmuch as Mr. Rosen has been certified as fit for full duty, no further action appears necessary.

RECOMMENDATION: None. Submitted for information and record purposes.

CONSULTATION REPORT

3 January 1963

This 57 year old Caucasian male, Assistant Director, FBI, was examined on 5 December 1962 for evaluation of a blood pressure which was found to be in the range as stated above on his annual physical examination in November 1962. In a review of his past history he reported that his blood pressure was found to have been slightly elevated in his 30's and attributed to excitability. He reported no history of dyspnea, chest pain, dizziness, or edema. In November 1962 he had morning frontal and occipital headaches, for about 10 days attributed to nasal congestion. He stated that his headaches were relieved by fresh air and exercise such as walking. In 1950 and 1954 he had epigastric discomfort and heartburn which was diagnosed as pylorospasm for which he has been treated with Butesol. During the recent past he has occasionally had heartburn which has been relieved by Tetrulac. He has been treated for his gastric complaints by Dr. Stephan Nealon, Jr., Washington, D.C. He stated that he had pneumonia in 1956 and influenza in 1961. He has never had any treatment for high blood pressure.

In regard to his family history he reported that his father died at the age of 72 from a heart attack and that his mother, who is in fair health, has anemia and diverticulitis.

Physical examination revealed a well-developed, well-nourished, adult white male who appeared to be in a good state of health. The optic fundi appeared normal. Initially his blood pressure was 180/108 in the left arm, and after resting in bed for about 30 minutes his pressure declined to 150/90. (Continued on reverse side)

legs was higher than in the arms. Examination of the heart revealed no enlargement, thrills or thrusts. The heart rate was regular at a rate of 86 per minute. The second aortic sound was not accentuated, and there were no murmurs or abnormal sounds. Examination of the lungs was negative. The liver and spleen were not palpable, the hepato-jugular reflux negative, and examination of the abdomen was negative. The peripheral pulses were normal and there was no cyanosis or edema.

An electrocardiogram revealed left axis deviation and no significant change from a previous EKG of 10/11/61. A review of PA and left lateral chest x-ray films revealed no abnormality of the heart or great vessels. A blood urea nitrogen, serum cholesterol, and urinalysis were normal. Because of an allergic history an intravenous pyelogram was not done; however, on 20 December 1962 a radioactive renogram was reported as normal.

Impression and Discussion: The findings in this case are compatible with the diagnosis of hypertensive vascular disease, benign, mild, (labile). A review of his electrocardiograms, on file at this activity, reveals that he has had a left axis deviation as far back as 1948, at which time his blood pressure was reported as being 138/80. In this connection, it does not appear that his left axis deviation is a particularly abnormal finding or as a result of hypertensive cardiovascular disease. The current findings do not indicate that his physical activity requires any restriction, compatible for his age, or that he needs medication for his blood pressure. However, a further report of his daily blood pressure readings at work would be helpful in determining whether his blood pressure remains at a sufficiently sustained level to warrant treatment. Should such a report reveal a sustained hypertensive level we would be happy to see this patient again for further evaluation and therapy.

PURPOSE: To keep you informed of developments since Mr. Rosen was given his annual physical examination 11-13-62 at U. S. Naval Hospital, Bethesda.

During aforementioned examination, Mr. Rosen's blood pressure was 156/90 and 170/102. Medical examiner requested that Mr. Rosen then have his blood pressure checked in our Health Service twice daily for four days and that such readings be furnished him. Mr. Rosen's blood pressure was 140/92; 138/90; 158/94; 148/88; 154/90; 152/92; 144/90; and 160/98 between 11-13-62 to and including 11-16-62. Medical examiner, after reviewing these readings, then recommended Mr. Rosen be given a cardiology consultation which was scheduled 12-5-62 with Dr. J. J. Dempsey, Cardiology Clinic.

On 12-5-62 Captain William B. Ingram, Cardiology Clinic, examined Mr. Rosen. At this stage no conclusions could be reached because Captain Ingram requested additional blood work and a urinalysis test and when he sees the results of these tests, he will be in a better position to furnish his findings. You will be kept informed.

Current surveys and Intensification Programs justified. Division to continue evaluations these programs.

Administrative Operations - Very Good (last inspection - Unsatisfactory).

Administrative weaknesses previously present in BILCOL case have been corrected. Director is being advised of pertinent developments, searches are being conducted of Bureau indices re witnesses and others prominently mentioned in major cases, and Division is closely following progress of field and issuing detailed instructions where feasible. still high although improved. Division instructed to follow closely.

Personnel Matters - Very Good (last inspection - Fair). Detailed adequacy of personnel survey conducted (separate memo being submitted). Believe one supervisor on loan to Criminal Section on BILSOL case can be released due to reduced activity of case. Mr. Rosen agrees. Recommend personnel allotment of Labor Unit, Accounting and Fraud Section, at 3 instead of previous 4. Mr. Rosen agrees. Division to follow Inspector's recommendation to evaluate work load of Special Labor Unit at 60-day intervals due to possible fluctuating work load. Reorganization and realignment of assignments recommended by Inspector in Accounting Unit, Accounting and Fraud Section, allowing for release of another supervisor. Division to comply. Net reduction of Agent supervisory employees in Division - 2. Personnel otherwise adequate but not excessive. Mr. Rosen, Mr. Malley and one supervisor on probation for prior deficiencies in supervision of BILSOL case (recommendation re supervisor handled separately). Morale high.

Contacts - Very Good (last inspection - Very Good). No delinquencies detected last inspection. Spot checks reveal Division personnel continue to effectively participate in contact and speech programs.

RECOMMENDATIONS:

1. Assistant Director Rosen, GS-18 @ \$20,000, nonveteran, on probation since 7/11/62 for failure to advise the Director of request of McClellan Committee to hold in abeyance interviews of witnesses in Billie Sol Estes case. He was censured on 7/20/62 and continued on probation for additional delinquencies in Estes case. Mr. Rosen makes an excellent appearance and is an experienced, dedicated employee. He has corrected the administrative weaknesses formerly present in supervision of Estes case and has given effective leadership to a number of investigations of major importance since last inspection. It is recommended that he be removed from probation. Attached letter will serve to summarize inspection findings and advise him of his removal from probation.

2. Inspector James R. Malley, No. 1 Man, GS-17 @ \$18,500, nonveteran, on probation since 7/11/62 for poor judgment in failing to insure Director was advised of pertinent developments in the Estes case. Mr. Malley makes an excellent, mature appearance. He has assisted Mr. Rosen in correcting the previously existing administrative weaknesses and has acted capably in the absence of Mr. Rosen.

Re: General Investigative Division Recheck Inspection

Recommend attached letter be sent to him advising him of his removal from probation.

3. Recommendations re other personnel handled separately.

PERMANENT BRIEFS OF MESSRS. ROSEN AND MALLEY ATTACHED.

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Space secure and contiguous within sections with adequate privacy. Maintained in orderly fashion. Minor housekeeping delinquencies ordered corrected. Temporary realignment of space in Criminal Section in existence during last inspection due to the Billie Sol Estes case special has been changed. Criminal Section space is now well organized for carrying on normal functions. Name Check Section occupies space in Identification Building. Remainder of Division space located on second and fifth floors of Justice Building. Individual sections are conveniently arranged for operational requirements. Division is following instructions issued last inspection and has submitted recommendations for improving offices of Section Chief and Number One Man of the Name Check Section. Personal property satisfactory.

SPECIFIC DIVISION OPERATIONS VERY GOOD

Ten most important cases plus representative sampling of other cases reviewed. Work load continues at high level throughout Division. Substantial accomplishments have been achieved in cases supervised by Division since last inspection including commencement of trial against James Riddle Hoffa at Nashville, Tennessee, on 10/22/62; solution of two church burning incidents near Albany, Georgia; close supervision of Oxford, Mississippi, Racial Matters case involving [redacted] location in Alexandria, Virginia, of two seven-year-old girls, [redacted] and [redacted] sought as possible kidnapping victims; and improved supervision of the Billie Sol Estes case.

Statistical accomplishments for Bureau for first four months of the 1963 fiscal year up in all categories as follows: Convictions 3%; Fines, Savings and Recoveries 28%; Fugitives 7%; and Automobiles recovered 3%. General Investigative Division is primarily responsible for supervision of all these categories except Fugitives and Division contributes to accomplishments of this latter category.

Review of surveys and Intensification Programs initiated by Division indicates currently justified. Division to continue to evaluate the need for these and others initiated in future.

Field delinquency in cases supervised by Division increased from 6.5% (May 31, 1962) to 7.1% (September 30, 1962). Instructed to follow closely. Four form errors detected in 79 files reviewed (5.06%).

Re: General Investigative Division Recheck Inspection

ADMINISTRATIVE OPERATIONS VERY GOOD

In view of the serious delinquencies in the administrative handling during the last inspection of the Billie Sol Estes (BILSOL) case, a thorough current analysis of this case was conducted. Activity in this case has declined considerably. Administrative weaknesses noted last inspection have been corrected. Director is being advised of pertinent developments, searches are being conducted of Bureau indices re witnesses and others prominently mentioned and appropriate instructions are being given to the field. Review of other cases reveals field progress in important matters is being followed closely and detailed instructions are issued where feasible.

Division consists of Front Office with Assistant Director Rosen and Inspector James R. Malley, and following four Sections: Criminal, Civil Rights, Accounting and Fraud, and Name Check. Each Section supervised by Section Chief and Number One Man. Various units headed by Supervisors in charge.

Administrative review letters in Criminal Section delinquent last inspection are now current. Stenographic production 2.7 pages per hour, down from 3.6 pages per hour last inspection. Seat of Government average 2.86. Reduction due to number of new employees in Division. Retypes reduced to 4.2% from 5.0% last inspection. Division should follow both decrease in production and percentage of retypes.

Division has been following Central Research Section on monograph re fraudulent practices and investigative techniques to uncover frauds. Suggestion submitted by Inspector that data be compiled for preparation of monograph on investigation of civil cases. Accounting and Fraud Section to compile this data.

Spot check of registers and time and attendance records satisfactory. Forms satisfactory. Odd-hour shifts justified. Ticklers being maintained in accordance with Bureau instructions. Economy of telephone and teletype communications stressed.

PERSONNEL MATTERS VERY GOOD

Training programs continue in satisfactory manner. Conferences and In-Service lectures monitored were constructive, well prepared and informative. Morale high.

Memo for Mr. Tolson

Re: General Investigative Division Recheck Inspection

Detailed adequacy of personnel survey conducted (separate memorandum being submitted). One Special Agent Supervisor has been on loan to Criminal Section from Labor Unit, Accounting and Fraud Section, working on BILSOL special. Activity in case has declined to point where Supervisor can be released. Mr. Rosen agrees, Labor Unit, Accounting and Fraud Section, has been operating with three Supervisors for past 6 months although 4 are allotted to Unit. Believe permanent allotment should be 3. Mr. Rosen agrees. Division to follow recommendations by Inspector to check on a 60-day basis the work load of the Special Labor Unit handling cases involving James Riddle Hoffa. Work load likely to fluctuate with possible release of personnel in future. Reorganization of duties and realignment of assignments recommended by Inspector in Accounting Unit, Accounting and Fraud Section, which will allow release of one Special Agent Supervisor. Mr. Rosen to comply with recommendations and in 60 days will thoroughly evaluate personnel needs of Accounting Unit at that time. This results in net reduction of 2 Agent Supervisors. Personnel otherwise adequate but not excessive.

Mr. Rosen, Mr. Malley and one supervisor on probation for prior deficiencies in supervision Estes case (recommendation re supervisor being handled separately). Unannounced availability checks revealed all Agents available. Promotional availability list now satisfactory. Two names added as result of inspection inquiry last inspection.

CONTACTS VERY GOOD

No delinquencies detected last inspection. Spot checks reveal Division personnel continue to effectively participate in contact and speech programs.

PERSONAL ATTENTION

Mr. Alex Rosen
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Rosen:

The results of the recent recheck inspection of the General Investigative Division have been reviewed. The various operations are rated as follows: Physical Condition and Maintenance, Specific Division Operations, Administrative Operations, Personnel Matters and Contacts - Very Good.

Division space was found to be maintained in an orderly fashion. It was noted that with the realignment of the Criminal Section following the completion of the special phase of the Billie Sol Estes case all sections are now conveniently arranged for normal operational requirements. You should continue to follow the recommendations made by the Inspector during the previous inspection for improvements in the offices of the Section Chief and Number One Man of the Name Check Section.

In view of the continuing high work load throughout the Division the utmost efficiency must be exercised to insure maximum productivity. I was pleased to note the number of cases of major importance since the last inspection wherein you and your Division provided effective leadership to the field. It is recognized that your Division has made a substantial contribution to the increased statistical accomplishments for the first four months of the current fiscal year. There can be no lessening of emphasis on this most important phase of the discharge of the Bureau's responsibilities. The existing surveys and intensification programs supervised by your Division are currently justified; however, you must continue to re-evaluate their worth in the light of ever-changing conditions. The field delinquency in those cases supervised by you should be followed closely to assure that these matters receive appropriate attention on a continuing basis.

The detailed analysis conducted of the handling of the Estes case since the last inspection revealed that the administrative weaknesses previously noted

have been corrected. Additionally, it was observed that in other important cases the progress of the field has been followed closely and detailed instructions are being issued where feasible. This is most encouraging and definitely should be continued

Although there are a number of new clerical employees in your stenographic pool, you should follow the typing production closely in view of the decrease since the last inspection. Also, the percentage of retypes remains too high even though slight progress has been noted since the last inspection. The Accounting and Fraud Section should continue to follow the Central Research Section concerning the monograph on fraudulent practices and investigative techniques and additionally conduct the research for a monograph on investigation of civil cases.

I am advised that the conferences and In-Service lectures monitored were constructive, informative and well directed. Morale was found to be high.

It was determined during the inspection that it is possible to release two supervisors from your Division for assignment elsewhere by the release of one supervisor currently on the Estes case, and a realignment of duties in the Accounting and Fraud Section. You must constantly evaluate the personnel needs of your Division to assure that every person assigned is engaged in productive, efficient and essential duties. Considering our critical need for manpower throughout the Bureau, the criteria for continuing specified functions cannot be merely that a position is desirable, but that it is absolutely essential.

It was noted that all Agents were found to be available and that the Promotional Availability List is currently being maintained in a satisfactory manner.

In view of the considerable improvement noted in the administration of the General Investigative Division, I am pleased to advise that you are being removed from a probationary status. You and the Number One Man should carefully review the findings in the inspection report and work papers left with you. Advise me within thirty days from the date of this letter of the action taken to correct the delinquencies noted.

Sincerely yours,

John Edgar Hoover

Captioned seven-year-old girls were reported missing from their homes in Alexandria, Virginia, during the afternoon of August 19, 1962. Since they were not located within 24 hours and were believed to have been kidnaped, a full field kidnaping investigation was initiated by the Bureau on August 20, 1962, with all available agent personnel from the Richmond Office and 65 agents from the Washington Field Office ordered to the scene under the direction of ASAC Harry J. Morgan, Richmond Office. Although thorough and wide-spread searches had allegedly been done of entire area by large numbers of local police, military personnel, neighbors and apartment managers, our agents at specific instruction of Assistant Director Rosen organized and instituted a systematic re-search beginning with all vacant apartments in the large Van Dorn and Brookville apartment developments. This approach resulted in locating the girls on August 21, 1962, locked in the bathroom of a vacant apartment in a building within 50 yards of their homes.

The successful results achieved in this case brought forth nationwide and unusually high praise from press, radio, television and citizenry and certainly added to the Bureau's prestige, thus the responsible personnel are deserving of special recognition.

b6

ASAC Morgan who directed activities at the scene in absence of SAC recommended incentive awards for SAs [] and [] for their efforts in actually locating the children and for Alternate Senior Resident Agent Jesse C. Hall, Jr., who handled case assignment, liaison with local police and coordinated investigation prior to ASAC's arrival; commendation for 12 other agents who provided most assistance during investigation and search; and general letter to SAC, WFO, commending through him WFO personnel who provided valuable assistance.

b6

Mr. Rosen recommended incentive award for ASAC Morgan in recognition of outstanding personal supervision and coordination at the scene; individual commendation for ASAC Dillard W. Howell for his splendid personal supervision of investigation in Washington and liaison with the Metropolitan Police; and commendations for Bureau Supervisors [] and [] who supervised and coordinated activities at the Seat of Government.

Re: Incentive Award and Commendation Matter

b6

Mr. Belmont concurred with the foregoing and in addition recommended commendation for Mr. Rosen for personally instructing that ASAC Morgan proceed to Alexandria to take charge of investigation and to search all neighborhood buildings regardless of what had allegedly been done previously. Mr. Belmont also recommended commendation for Assistant Director DeLoach and Inspector Robert E. Wick for their particularly effective handling of the press which resulted in the extremely favorable publicity afforded the Bureau. Mr. DeLoach recommended commendations for Bureau Supervisors Harold P. Leinbaugh and [redacted] for invaluable assistance in handling press inquiries and dissemination of information to appropriate sources.

It is agreed that appropriate recognition should be given to the above-mentioned key personnel; however, it is felt that the 12 individual commendations recommended for Richmond agents who participated at the scene should be commended along with other Richmond agents who participated through a general letter to SAC since this was a team effort.

BUREAU RECORDS OF AGENTS RECOMMENDED FOR INCENTIVE AWARDS:

ASAC Morgan - EOD 7-7-47, Grade GS 14, \$12,730. Has been ASAC in Richmond since 12-1-60 during which time he has been censured twice and commended twice through his SAC.

SA [redacted] - EOD 1-15-40, Grade GS 13, \$12,195. During the past three years commended twice and once through his SAC. No censures.

SA [redacted] - EOD 10-30-61, Grade GS 10, \$6995. No censures or commendations.

SA [redacted] EOD 11-18-46, Grade GS 13, \$11,415. During the past three years commended on five occasions through his SAC. No censures.

Each of the above was rated Excellent on last performance rating, is completely available and overtime record satisfactory.

b6

RECOMMENDATIONS:

(1) That ASAC Harry J. Morgan and SAs [redacted] and [redacted] each be approved for an incentive award in the amount of \$150. (Amount recommended is in line with previous awards granted for similar performances.)

SUBJECT and
MISSING PERSONS

Attached is a teletype from the Richmond Office with recommendations for incentive awards and commendation for Agents who participated in the successful search for the two missing girls. General Investigative Division has attached an addendum making further recommendations. I agree with these recommendations as set forth.

In addition, I recommend a letter of commendation to Assistant Director ^{Alex} Rosen. He personally issued instructions to the field in this matter, instructed that ASAC Morgan come up from Richmond to Alexandria to take personal charge of the case, and issued instructions to ASAC Morgan that regardless of prior searches in the neighborhood Agents should search the buildings in the neighborhood of the children's homes.

Immediately upon receipt of word that the little girls had been located, Mr. DeLoach was advised in order that the press could be so informed at once before such information was released from other sources. From my personal observation, Mr. DeLoach took hold of this at once and contacted the press with the resultant extremely favorable publicity, giving proper credit to the Bureau. In addition, he dispatched Inspector Wick to Alexandria to assist in handling the press and photographers at the scene in order to assure a smooth operation. It is my understanding that Mr. Wick arranged that the photograph of the Agents and the little girls be taken by the press, thus again placing the proper emphasis on the Bureau's part in this matter. I therefore, recommend, that Assistant Director DeLoach and Inspector Wick be commended.
